Mary Anne Hodel, Library Director, Chief Executive Officer

January 6, 2017

To the Library Board of Trustees and Residents of the Orange County Library District:

The Comprehensive Annual Financial Report (CAFR) of the Orange County Library District (District) for the fiscal year ended September 30, 2016 is hereby submitted.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management of the District. To the best of our knowledge and belief, the information presented herein is accurate in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The CAFR is presented in four sections:

- Introductory Includes this transmittal letter, the District's organizational chart, a list of principal officials, and the prior year's Certificate of Achievement for Excellence in Financial Reporting.
- Financial Includes the report of independent auditor, management's discussion and analysis, the basic financial statements, required supplementary information, and other supplementary information.
- Statistical Contains selected financial and demographic information, generally presented on a multi-year basis.
- Compliance Contains schedules and reports required by state and federal regulations.

State statute, augmented by the Rules of the Florida Auditor General, requires that the District's financial statements be published within one year of fiscal year end, presented in conformance with generally accepted accounting principles (GAAP) as applicable to governmental entities, and audited in accordance with generally accepted auditing standards by licensed independent certified public accountants. This report serves to fulfill these requirements.

Management of the District is responsible for establishing and maintaining an internal control framework that is designed to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. As a recipient of federal and state financial assistance, the District is also responsible for establishing adequate internal controls to ensure compliance with applicable laws and regulations related to those

programs. The District's internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits require estimates and judgments by management. We believe the District's internal controls adequately safeguard assets, provide reasonable assurance of properly recorded financial transactions, and provide reasonable assurance that applicable laws and regulations relating to federal and state financial assistance are being followed.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of independent auditor.

#### **District Profile**

The District was established by a special state legislative act, Chapter 80-555, Laws of Florida, approved by referendum on September 9, 1980 as an independent special taxing district, to provide library services for Orange County, Florida (exclusive of the Cities of Winter Park and Maitland). The original act, as amended, was recodified into Chapter 99-486, Laws of Florida.

The District's Governing Board is comprised of the Board of County Commissioners of Orange County and one member appointed by the City Council of the City of Orlando, Florida. The powers of the Governing Board are primarily limited to levying taxes, issuing long-term debt, appointing members of the Board of Trustees, and exercising powers of eminent domain. The five-member Library Board of Trustees is responsible for managing, administering, and operating all library facilities and services of the District. Library services are provided to approximately 1,233,000 residents through a 290,000 square foot Main Library building and 15 branch facilities, which range in size from 5,600 to 15,700 square feet.

The District adopts annual budgets for all governmental funds on a modified accrual basis. Budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. Except for the Permanent Fund, which was created in fiscal year 2016, budget-to-actual comparisons are provided in this report for each governmental fund.

#### **Economic Condition**

Information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

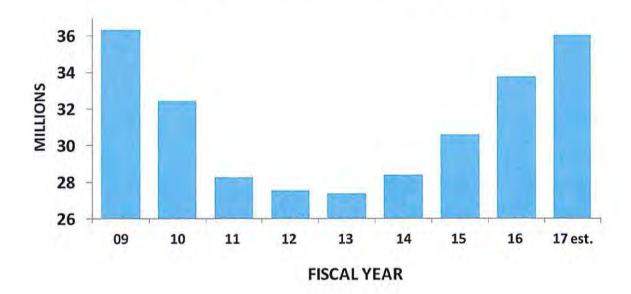

**Local economy.** The local economy is primarily driven by the tourism and travel industry. Major employers include Walt Disney World Resort, Universal Studios Florida, Florida Hospital Orlando, Orlando Health, Lockheed Martin, Orange County Government, University of Central Florida, Westgate Resorts, Darden Restaurants, and Rosen Hotels & Restaurant. The two largest property tax payers of the District are the Walt Disney World Resort and Universal Studios Florida.

**Property taxes.** The District is primarily funded through property tax revenues. In June 2007, the Florida Legislature passed legislation, which resulted in a 13% reduction in the District's millage rate for fiscal year 2008. The District's millage rate dropped from .4325 for fiscal 2007 to .3748 for fiscal 2008, and has remained at .3748. Despite the reduction in the District's millage rate, property tax revenues for fiscal year 2008 remained stable due to significant new construction added to the tax rolls.

The Florida Legislature approved further tax reform proposals which were approved by the voters on January 29, 2008. The net effect of this second wave of property tax reform was to remove 6 billion of property tax value from the District's tax rolls. However, due to new construction in the District, property tax revenues for fiscal year 2009 again remained stable.

While the District's property tax revenues had remained stable from fiscal year 2007 through 2009, the recession and bursting of the housing bubble had a dramatic effect on the property tax revenues of most local governments in Central Florida, including the District. As illustrated in the chart below, the District's property tax revenues dropped \$8,948,000 or 25%, from fiscal year 2009 to 2013. After dropping to the low point in fiscal year 2013, property values have rebounded since then and are projected to increase to \$36,000,000 in fiscal year 2017.

## **Property Tax Revenues**

Long-term financial planning. Over the last ten years, many of the key building systems and the interior of the 290,000 square foot Main Library building, which opened in March of 1985, have been replaced or renovated. Remaining projects, which will be addressed in subsequent years, include replacing the emergency generator and renovating the fifth floor, which houses information system functions as well as Finance, Human Resources, and administrative offices. These projects will be funded from the District's General Fund likely through a combination of property tax revenues and reserves.

The District is annually transferring money from its General Fund to the Capital Projects Fund for future branch development. The District is continuing to monitor and evaluate the need for future branch libraries in high growth areas, including Lake Nona and Horizon West.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Orange County Library District for its comprehensive annual financial report for the fiscal year ended September 30, 2015. This was the thirteenth consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

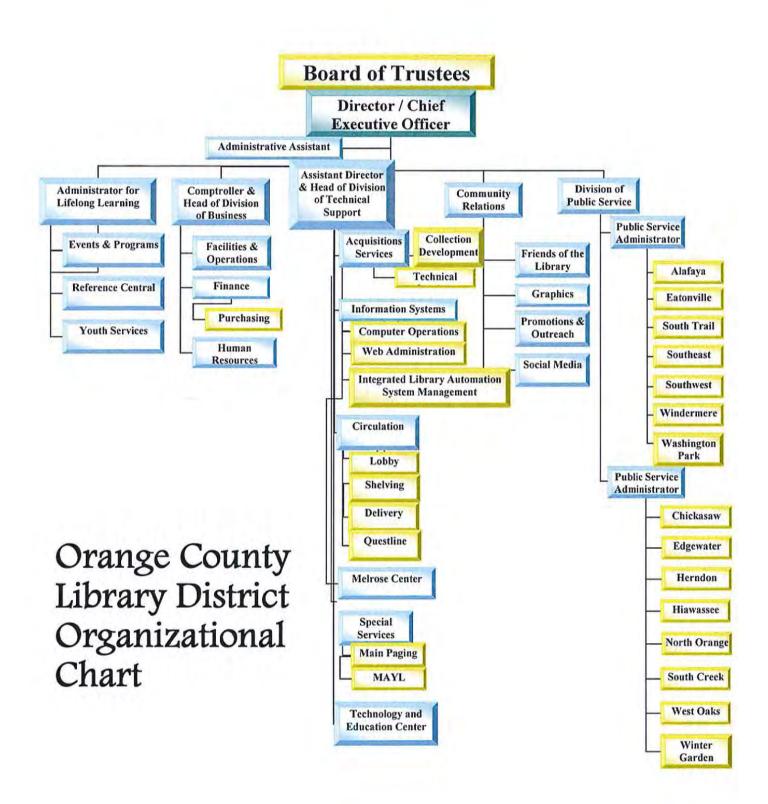

The preparation of this report would not have been possible without the efficient and dedicated services of the Finance Department staff. We would also like to extend our appreciation to the Library Board of Trustees for their considerable contributions and support. Finally, we would like to thank the accounting firm of Cherry Bekaert LLP for helping to bring this report together.

Sincerely,

Robert Tessier, CPA

## Orange County Library District Florida

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

September 30, 2015

Executive Director/CEO

#### Report of Independent Auditor

To the Members of the Orange County Library Board of Trustees Orange County Library District Orlando, Florida

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Orange County Library District (the "District), a component unit of Orange County, Florida, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. We also have audited the financial statements of the internal service fund, presented in the District's basic financial statements, and each of the fiduciary funds of the District, presented as other supplementary information in the accompanying combining financial statements, as of and for the year ended September 30, 2016.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of September 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly in all material respects, the respective financial position of the internal service fund and each fiduciary fund of the District as of September 30, 2016 and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

As discussed in Note 1 to the financial statements, the District adopted the provisions of Governmental Accounting Standards Board Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments, effective October 1, 2015. Our opinions are not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements and on the fiduciary funds presented as other supplementary information. The introductory and statistical sections and capital projects fund budgetary comparison information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of state financial assistance is presented for purposes of additional analysis as required by Chapter 10.550, Rules of the Auditor General, and is also not a required part of the financial statements.

The capital projects fund and capital projects sinking fund budgetary comparison information and the schedule of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the capital projects fund and capital projects sinking fund budgetary comparison information and the schedule of state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

Chang Bahoat up

In accordance with *Government Auditing Standards*, we have also issued our report dated January 5, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Orlando, Florida January 5, 2017

### Management's Discussion and Analysis

The following discussion and analysis of the Orange County Library District's (the "District") financial statements provides an overview of the District's financial activities for the fiscal year ended September 30, 2016. This analysis is designed to assist the reader of the financial statements in focusing on the significant financial issues and activities and to identify any significant changes in financial position. The information presented here should be considered in conjunction with the financial statements taken as a whole.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements, which are comprised of the following three components.

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

#### Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances taken as a whole, in a manner similar to a business.

The statement of governmental net position presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Assets, deferred outflows of resources, liabilities, and deferred inflows of resources are reported in this statement based on the accrual method of accounting, which is used by most businesses.

The statement of governmental activities presents information showing how the District's net position changed during the year. This statement includes all of the District's revenues and expenses, regardless of when the cash is received or paid.

The government-wide financial statements are located on pages 14 - 15 of this report.

#### Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other local governments, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the District's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for the same library activities reported in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows in and out of the funds and the balances left at year-end that are

available for spending. These funds are reported based on the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental fund statements provide a short-term view of the District's financial operations.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it may be useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. Both the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison.

The District's governmental funds consist of the General Fund, Capital Projects Fund, Capital Projects Sinking Fund, and Permanent Fund, all of which are reported as major funds. Information is presented separately in the governmental balance sheet and statement of revenues, expenditures, and changes in fund balances for each of these funds. The governmental fund financial statements can be found on pages 16 - 18 of this report.

Except for the Permanent Fund, the District adopted an annual budget for each of its governmental funds. Budgetary comparison schedules are located on page 49 for the General Fund and on pages 56 - 57 for the other funds.

**Proprietary funds.** The District maintains one type of proprietary fund. An *internal* service fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its Internal Service Fund to account for its self insured health coverage provided to employees and retirees. Because these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements. The basic Internal Service Fund financial statements can be found on pages 19 - 21.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the District. The District is the fiduciary for the Defined Benefit, Defined Contribution, and Money Purchase Pension Plans as well as the Other Postemployment Benefit Plan. The combined activities for these plans are reported in the Statement of Fiduciary Net Position – Pension and Other Postemployment Benefit Trust Funds, and Statement of Changes in Fiduciary Net Position – Pension and Other Postemployment Benefit Trust Funds on pages 22 - 23 of this report. Combining financial statements for the plans can be found on pages 54 - 55. The financial activities for these plans are excluded from the District's government-wide financial statements because the District cannot use the assets to finance its operations.

#### Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 - 48 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which can be found on pages 49 - 53 of this report.

#### Government-wide Financial Analysis

The following summarizes the District's net position at September 30, 2016 and 2015.

	2016	2015
Current and other assets	\$19,871,341	\$19,021,709
Capital assets	33,213,078	29,407,021
Total assets	53,084,419	48,428,730
Deferred outflows of resources	4,124,352	2,909,658
Total assets and deferred outflows of resources	57,208,771	51,338,388
Current liabilities	4,590,783	2,875,837
Long term liabilities	588,609	618,254
Total liabilities	5,179,392	3,494,091
Deferred inflows of resources	1,245,459	175,818
Total liabilities and deferred inflows of resources	6,424,851	3,669,909
Net position:		
Investment in capital assets	33,213,078	29,407,021
Restricted	657,517	157,517
Unrestricted	16,913,325	18,103,941
Total net position	\$50,783,920	\$47,668,479

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. During the year ended September 30, 2016, the District decreased its net position through operating results by \$890,031 and assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$50,783,920 as of the end of the fiscal year.

By far the largest portion of the District's net position is its investment in capital assets (land, buildings, improvements, furniture and equipment, computer equipment, library books, and construction in progress). The District uses capital assets to provide library

services. Consequently, these assets are not available for future spending. The District does not have any debt associated with its capital assets.

A second category of net position is referred to as restricted since the resources are subject to external restrictions on how they can be used. This category consists of funds donated to the District, which can only be used for specified purposes.

The last category, unrestricted, may be used to meet the District's ongoing obligations to citizens and creditors.

The following summarizes the District's governmental activities for the years ended September 30, 2016 and 2015.

	2016	2015
Program Revenues		
Charges for services	\$1,377,878	\$1,511,583
Operating grants and contributions	1,151,860	1,501,688
Capital grants and contributions	500,000	446,227
General Revenues		
Property taxes	33,714,713	30,552,756
Investment income	172,626	95,449
Miscellaneous	302,935	642,595
Total revenues	37,220,012	34,750,298
Expenses		
Salaries and benefits	21,474,152	20,414,549
Operating	9,354,014	8,454,658
Depreciation	4,382,963	2,096,541
Materials	2,898,914	4,863,762
Total expenses	38,110,043	35,829,510
Changes in net position	(890,031)	(1,079,212)
Net position - beginning of year	47,668,479	48,747,691
Cumulative effect of change in accounting principle	4,005,472	
Restated beginning net position	51,673,951	48,747,691
Net position - end of year	\$50,783,920	\$47,668,479

- Due primarily to a decrease in State Aid to Libraries, operating grants and contributions decreased by \$349,828.
- The \$500,000 capital and grant contribution in fiscal year 2016 represents a donation, the earnings from which are dedicated to capital upgrades to the District's Melrose Center in the Main Library.
- While the tax rate did not change, property taxes increased \$3,161,957 due to the increase in property values and new construction.
- While some of the \$77,177 increase in investment income was due to rising interest rates, most of it was due to mutual fund investments related to the \$500,000 donation.
- The \$339,660 decrease in miscellaneous revenue is due to the reduced funding from the Universal Service Schools and Libraries Program, which provides rebates on qualified telecommunication and internet access charges.
- Salaries and benefits increased \$1,059,603 due to a slight increase in staffing levels, salary increases, and increased pension cost for the District's Defined Benefit Pension Plan.
- Operating expenses increased \$899,356 due to a loss in the District's health self insurance activities, which was planned to reduce accumulated reserves, higher marketing and programming costs, and costs for some smaller projects.
- o The \$2,286,422 difference in depreciation is due to the District's implementation of an accounting change, effective October 1, 2015, to capitalize and depreciate library books and audiovisual materials. That is also the reason for the \$1,964,848 decrease in materials purchases.

#### **Fund Financial Analysis**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The District's governmental funds provide information on near-term inflows, outflows, and balances of spendable resources. Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is used to account for all revenues and expenditures applicable to the general operations of the District, which are not required to be accounted for in another fund. Primarily due to lower than anticipated revenues, unassigned fund balance decreased from \$3,675,686 to \$2,234,086.

The \$912,305 increase in the Capital Projects Fund was due to a \$700,000 transfer from the General Fund for future branch development, recognition of \$200,000 of construction grant revenue, and investment income.

The Capital Projects Sinking Fund was established to accumulate resources for future building improvements and major technology purchases. Fund balance increased by \$3,200 during the year due to investment income. The entire fund balance of \$497,582 is assigned for capital projects.

The \$559,693 fund balance in the Permanent Fund represents a \$500,000 donation and investment income on that donation. The \$500,000 donation is nonspendable and the \$59,693 investment income is restricted for upgrades to the Melrose Center.

#### General Fund Budgetary Highlights

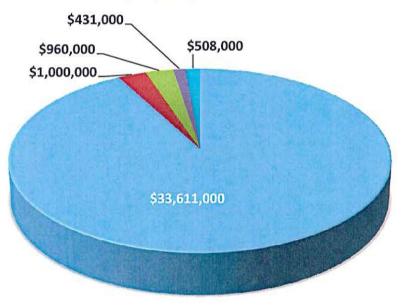

The District adopted a budget for its General Fund (see page 49) prior to the start of its fiscal year and did not amend it. Accordingly, the original and final budgets are the same.

The following charts show the budget versus actual for revenues and expenditures.

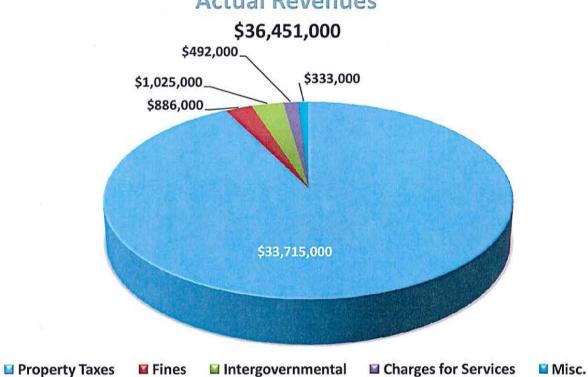

## **GENERAL FUND**

## **Budgeted Revenues**

\$36,510,000

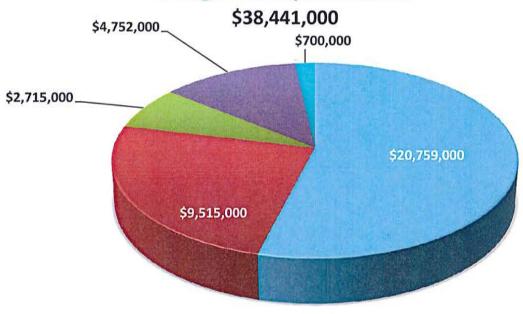

### **Actual Revenues**

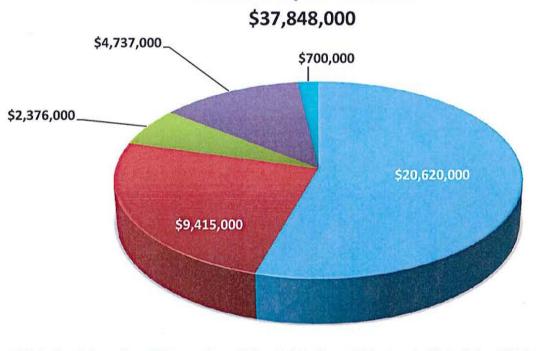

## **GENERAL FUND**

## **Budgeted Expenditures**

## **Actual Expenditures**

The following summarizes significant variations between the amounts budgeted and the actual amounts for the General Fund.

**Property Taxes** – The District budgets 95% of the taxes levied but, due to discounts offered for early payment, receives a slightly higher percentage.

**Federal Grants** – Actual federal grant revenues received during the year were higher by \$71,610 than was estimated.

Fines – While fines revenue has been declining in recent years, the District's budget estimate was too high, thus the reason for \$113,573 in lower revenues.

Charges for Services – A small number of charges, meeting room, faxes, and scans, came in higher than anticipated, and thus the \$47,018 overage.

**Investment Income** - Due to rising investment rates, investment income came in \$48,626 higher than budgeted.

**Miscellaneous** - Included in miscellaneous revenue, the District budgeted \$360,000 for the Universal Service Schools and Libraries Program. While the District was approved for \$192,900 for this Program, the revenue was not received within 60 days of fiscal year end and thus, the revenue was not deemed available.

Salaries and Benefits - Out of the \$20,759,000 budget, the District expended all but \$138,998.

Operating - The District expended 98.9% of the \$9,515,000 Operating budget.

Capital Outlay - This category was under spent by \$354,340, as some budgeted projects were abandoned or delayed to a subsequent year.

#### Capital Assets

The District's capital assets, net of accumulated depreciation, consist of the following at September 30, 2016 and 2015.

2016	2015
\$ 3,349,802	\$ 3,349,802
12,796,732	13,541,600
8,906,789	9,254,894
1,468,001	1,642,745
3,786,692	
1,442,985	1,283,475
1,462,077	334,505
\$33,213,078	\$29,407,021
	\$ 3,349,802 12,796,732 8,906,789 1,468,001 3,786,692 1,442,985 1,462,077

Significant capital asset purchases included the following:

- Construction to renovate the fourth floor of the Main Library totaled \$1,360,049 during fiscal year 2016.
- The Melrose Center audio studio remediation project was completed for a total cost of \$186,855.
- The Main Library fire pump was replaced in the amount of \$143,325.
- o Computer equipment and software purchases equaled \$365,205.
- The District's redesigned website was completed in 2016 at a total cost of \$259,477.

Per Note 1, the District began capitalizing and depreciating library books and audiovisual materials effective October 1, 2015. Accordingly, both capital assets and accumulated depreciation reported on page 36 were restated for books and materials purchased in prior years. This restatement is not reflected in amounts reported in the Management's Discussion and Analysis. Additional information on the District's capital assets can be found on page 36 of this report.

#### Long Term Liability

The District's long-term liability consists of the following at September 30, 2016 and 2015.

	2016	2015
Accrued Compensated Absences	\$1,561,844	\$1,621,482

Additional information on the District's long term debt can be found on page 37 of this report.

#### Requests for Financial Information

This report is designed to provide a general overview of the District's finances and to show accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be directed to:

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Governmental Activities Year Ended September 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 452,225
Governmental funds report all capital outlays as expenditures. However, in the statement of governmental activities the cost of capital outlay, other than electronic library books and other materials, is allocated over estimated useful lives and reported as depreciation expense. This is the amount of capital outlay not reported as electronic materials expense on the statement of governmental activities.	4,213,746
In the statement of activities, a gain or loss on the disposition of capital assets is reported, whereas in the governmental funds, the proceeds received from disposition of capital assets increases financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of capital assets disposed of.	(30,198)
Depreciation of capital assets, not reported in governmental funds.	(4,382,963)
Some items affecting expenses reported in the statement of governmental activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds, as follows:  Increase in net pension liability  Decrease in accrued compensated absences  Decrease in net OPEB asset	(1,037,492) 59,638 (21,349)
Amounts to be collected under long term receivables are not available to pay for the current period's expenditures and, therefore, are reported as deferred inflows of governmental funds.  Decrease in deferred inflows	(7,100)
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the funds.  Increase in deferred outflows of resources Increase in deferred inflows of resources	1,214,694 (1,069,641)
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The change in net position of internal service funds is reported with governmental activities.	(281,591)
Change in net position of governmental activities	\$ (890,031)

## Note 1 - Summary of significant accounting policies

#### Reporting entity

The Orange County Library District (the "District") was established by a special state legislative act, Chapter 80-555, Laws of Florida, approved by referendum on September 9, 1980 as an independent special taxing district, to provide library services for Orange County, Florida (exclusive of the Cities of Winter Park and Maitland). The original act, as amended, was recodified into Chapter 99-486, Laws of Florida.

The District's Governing Board is comprised of the Board of County Commissioners of Orange County, Florida (the "County") and one member appointed by the City Council of the City of Orlando, Florida. A five member Board of Trustees (the "Board") is appointed by the Governing Board to manage, administer and operate all library facilities and services of the District. The District is a component unit of the County because the District's Governing Board is substantially the same as that of the County and the District is fiscally dependent on the County for issuance of bonded debt.

#### Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of governmental net position and the statement of governmental activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements.

The statement of governmental activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods or services provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and pension and other postemployment benefit trust funds, even though the trust funds are excluded from the government-wide financial statements. All of the District's individual governmental funds are reported as major and are presented as separate columns in the fund financial statements.

#### Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting under governmental accounting standards, as are the internal service and pension and other postemployment benefit trust fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of

#### Note 1 - Summary of significant accounting policies (continued)

the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes and investment earnings associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The Internal Service Fund distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from claims activities, whereas non-operating items consist of investing activities.

Governmental Funds - The District reports the following governmental funds, all of which are major funds:

General Fund is used to account for all revenues and expenditures applicable to the general operations of the District, except those required to be accounted for in another fund.

<u>Capital Projects Fund</u> is used to account for resources designated to construct or acquire capital assets and major improvements.

<u>Capital Projects Sinking Fund</u> is used to accumulate resources for the future construction or acquisition of capital assets and major improvements.

<u>Permanent Fund</u> is used to account for resources that are legally restricted to the extent that only earnings, and not principal, are used for purposes that support the District's programs.

Proprietary Funds - The District reports the Internal Service Fund to account for health self insurance activities.

Fiduciary Funds - The District reports pension and other postemployment benefit trust funds to account for the activities of the Defined Benefit, Defined Contribution, and Money Purchase Pension Plans and the Other Postemployment Benefit Plan.

#### New Accounting Pronouncement

Effective October 1, 2015, the District adopted Governmental Accounting Standards Board Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments ("GASB 76"). While GASB's Implementation Guide stated that library books and similar materials should be capitalized, a general business practice not to capitalize them had also been acceptable. GASB 76 changed the hierarchy of the Implementation Guide, which resulted in a requirement for the District to capitalize and depreciate library books and similar materials.

## Notes to Financial Statements Year Ended September 30, 2016

## Note 1 - Summary of significant accounting policies (continued)

The implementation of GASB 76 resulted in a restatement of beginning net position due to the capitalization and depreciation of library books purchased in prior years. As a result of implementing GASB 76, the beginning net position of the District was increased by \$4,005,472 as follows:

Beginning net position as previously reported at September 30, 2015

\$47,668,479

Prior period restatement - Implementation of GASB 76

Books and audiovisual materials depreciable capital assets net of accumulated depreciation

4,005,472

Net Position as restated October 1, 2015

\$51,673,951

#### **Budgetary requirements**

Expenditures are controlled by appropriations in accordance with budgetary requirements set forth in the Florida Statutes. The budgeted revenues and expenditures in the accompanying financial statements reflect any amendments approved by the Board of Trustees.

Except for the Permanent Fund, budgets for the governmental fund types were adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets are not adopted for the internal service, pension, and other postemployment benefit trust funds. Expenditures cannot exceed appropriations by fund level. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

#### Cash and cash equivalents

Cash and cash equivalents include cash on hand, demand deposits, certificates of deposit with an original maturity date of 90 days or less, and money market accounts. Investments in external pools, including Florida Prime and Florida Safe, are considered investments.

#### Investments

Investments are stated at fair value, or at amortized cost, which approximates fair value. Investment income includes all realized and unrealized gains and losses. Interest and dividend income is recognized on the accrual basis.

#### Inventory and prepaid items

Inventory is stated at cost on the basis of the "first-in", "first-out" method of accounting. The effect of this method is to flow costs through operations in the order in which the items were purchased. Inventory and prepaid costs are recorded as expenditure at the time individual items are consumed (consumption method).

## Note 1 - Summary of significant accounting policies (continued)

#### Capital assets

Capital assets consist of facilities and equipment used in the District's operations and is recorded as expenditures in the General Fund, Capital Projects Fund, or Capital Projects Sinking Fund at the time goods are received and a liability is incurred. Capital assets are defined by the District as assets with an initial, individual cost of at least \$1,000 and an estimated useful life in excess of two years. Except library books, which are capitalized using a composite method, these assets are capitalized at historical cost in the government-wide financial statements and are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Improvements	15
Furniture and equipment	10
Library books & audiovisual materials	4
Computer equipment	4

The District capitalizes library books and similar audiovisual materials. Annually, purchased additions are capitalized at cost. Fully depreciated materials are reported as deletions from capital assets in the year after they become fully depreciated.

Accumulated depreciation is recorded from the date each asset was placed in service. The District's sole function is to provide library service. As a result, depreciation expense on capital assets is deemed to be a direct expense and is not subject to allocation. Donated assets are recorded as capital assets at acquisition value upon the date of donation.

#### Pending Trades

Pending trade receivables (Due from Brokers) and obligations (Due to Brokers) in the Statement of Fiduciary Net Position-Pension and Other Postemployment Benefit Trust Funds, represent investment sales and purchases made with trade dates at fiscal year end and settlement dates after the fiscal year end.

#### Compensated absences

It is the policy of the District to permit employees to accumulate earned but unused leave benefits, a limited amount of which will be paid to employees upon separation from service. Unpaid compensated absences are recorded as a liability when the benefits are earned in the government-wide financial statements. For governmental funds, there is no legal requirement to accumulate expendable available financial resources to liquidate the obligation; thus expenditures are recognized in the governmental funds when payments are made to employees.

#### Long-term liability

In accordance with accounting principles generally accepted in the United States of America, long-term liabilities are not recognized in the Governmental Fund financial statements. They are instead reported as liabilities in the government-wide financial statements.

## Note 1 - Summary of significant accounting policies (continued)

#### Deferred outflows and inflows of resources

For purposes of measuring changes in the net pension liability for the District's Defined Benefit Pension Plan, differences between expected and actual experience that are not charged to pension expense in the current period are recorded as deferred outflows and inflows of resources in the statement of Governmental Net Position. In addition, a receivable related to a Universal Service Schools and Libraries program was not deemed available under the modified accrual basis of accounting (collected within 60 days of fiscal year end) and thus, was recorded as a deferred inflow of resources in the General Fund.

#### Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Investment in capital assets, consists of capital assets, net of accumulated depreciation. Net position is reported as restricted when there are limitations imposed on their use either through external restrictions imposed by creditors or grantors. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### Fund Balance Reporting

Fund balance for the District is reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts of the fund can be spent.

There are two major types of fund balances, which are spendable and nonspendable. Nonspendable fund balances cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal of an endowment or trust funds.

Spendable fund balances are expended based on a hierarchy of spending constraints, as follows:

- Restricted Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- Committed Fund balances that contain self-imposed constraints of the government from
  its highest level of decision making authority. Committed fund balances are reported
  pursuant to resolutions approved by the District's Board of Trustees and can only be
  modified or rescinded through resolutions approved by the District's Board of Trustees.
- Assigned Fund balances that contain self-imposed constraints of the government to be used for a particular purpose. Assignments may be made by the District's Board of Trustees, the Director, or the Comptroller. No formal policy exists for assigning fund balances.
- Unassigned Fund balance of the general fund that is not constrained for any particular purpose.

## Note 1 - Summary of significant accounting policies (continued)

For purposes of the Statement of Governmental Net Position, nonspendable endowments are presented as restricted.

The District does not have a formal policy related to the order of spending, but when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District's Board of Trustees has provided otherwise in its commitment or assigned actions.

#### Tax status

The District was granted 501(c)(3) status by the Internal Revenue Service and is not subject to Federal Income Taxes.

#### Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the financial statement date and the reported amounts of revenues and expenses or expenditures during the reporting period. Actual results could differ from those estimates.

## Note 2 - Deposits and investments

At September 30, 2016, the District had the following deposits and investments:

General Governmental Deposits:	_	Fair Value
Deposits (demand accounts)	\$	4,162,517
Internal Pooled Cash Equivalents (money market accounts)	70	942,265

## Note 2 – Deposits and investments (continued)

#### Fair Value Measurement of Investments

The District adopted Governmental Accounting Standards Board Statement No. 72, Fair Value Measurement and Application, in fiscal year 2016. Under this standard, the District categorizes its fair value measurements using either level 1, quoted prices in active markets for identical assets, or level 2, quoted prices for similar assets or inactive assets.

At September 30, 2016, the District's fair value categorizations of investment fair value measurements were as follows:

		Fair Value 9/30/2016	Ac	oted Prices in tive Markets or Identical Assets (Level 1)	 nificant Other Observable Inputs (Level 2)
Individual securities:					
Corporate bonds	\$	7,465,328	\$	14	\$ 7,465,328
Government bonds		8,552,909		9	8,552,909
Asset backed securities		959,089		-	959,089
US Treasuries		10,010,592		1.5	10,010,592
Mutual funds:					
Domestic equities		34,815,923		34,815,923	16
International equities		10,198,288		10,198,288	4

Fixed income		7,948,418		7,948,418	- 6
Real estate		3,359,322		3,359,322	
Money market accounts		65,703		65,703	-
	\$	85,497,608	\$	58,509,690	\$ 26,987,918
Invest reported at amortized cost:					
FL Prime	\$	27,398			
Investments measured at net asset value:					
Fl Safe	\$	2,025,853			
Jennison (commingled account)		8,641,745			
The Boston Company (commingled account)		2,511,688			
Augustician and Marine 18 and Christian	\$	13,179,286			
PW - 12-27 W 1 1 1 2 2	_				
Total investments	\$	98,704,292			

The District's investment in Florida PRIME, a 2a7-like external investment pool, is measured at amortized cost.

#### Note 2 – Deposits and investments (continued)

District investments measured at net asset value are summarized as follows:

Florida Safe- The District uses this external pool, which is available to local governments, to invest general governmental revenues. Florida Safe's general investment strategy includes safety of capital, liquidity of funds, transparency and investment income, in that order. This investment is redeemable upon notice.

The Boston Company - The District's Defined Benefit Pension Plan uses this commingled fund to invest in international securities. The Pricing Policy of The Boston Company requires securities within the fund to be fair value priced daily. This investment is redeemable upon notice.

Jennison - The District's Defined Benefit Pension Plan uses this commingled fund to invest in small capitalization domestic securities. Jennison's Declaration of Trust states that assets in the fund shall be valued based on market quotations or, if quotations are not readily available, at fair value. This investment is redeemable upon notice.

#### Investment Policies and Risks

#### General Governmental and Internal Service Fund Investments

The District pools its general governmental and Internal Service Fund surplus funds for investment purposes and these investments are managed in accordance with an Investment Policy Statement (Statement). The Statement authorizes investments in Florida intergovernmental investment pools, such as Florida Safe, Securities and Exchange Commission registered money market funds, interest bearing time deposits, and direct obligations of the U.S. Treasury. Although the District's Statement does not address credit and interest rate risk, the limited nature of the authorized investments effectively minimizes any exposure. The District's pooled general governmental and Internal Service Fund cash equivalents and investments include the following at September 30, 2016:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Go	General overnmental	140.77	nternal vice Fund
Federated Government Obligations Fund	Money Market	AAAM	45 days	\$	395,180	\$	142,807
Federated Treasury Obligations Fund	Money Market	AAAM	44 days		547,085		197,702
Florida Safe		<b>AAAM</b>	60 days		1,488,094		537,758
Florida PRIME		AAAM	50 days		20,125		7,273
US Treasuries		N/A	18 to 33 months		7,353,304		2,657,290
Total Pooled Investments					9,803,788		3,542,830
Bank Deposits					4,162,517		147,176
Total Bank Deposits and Investments				\$	13,966,305	\$	3,690,006

## Note 2 – Deposits and investments (continued)

#### Permanent Fund Investments

Investments in the Permanent Fund are managed in accordance with a Special Funds Investment Policy Statement (Statement). The Statement sets the following asset allocation guidelines: 60% for domestic and foreign equity securities and 40% for fixed income and cash securities. The Statement authorizes investments in domestic and foreign equities, mutual funds, stable value accounts, corporate bonds, real estate investments trusts, exchange traded funds, commingled funds, and cash equivalents. The Permanent Fund investments, other than mutual funds in equity securities, were as follows at September 30, 2016:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Fair Value		
Vanguard High Yield Corporate Fund	Fixed Income	Ва	5.80	\$	112,061	
Vanguard Total Bond Market Index Fund	Fixed Income	Baa	8.20	<u></u>	103,595	
				\$	215,656	

#### Defined Contribution Pension Plan Investments

Participants in this Plan, including all District employees, self-direct investments from a variety of mutual funds offered through the ICMA Retirement Corporation. Accordingly, the District has not adopted an investment policy for this Plan. Defined Contribution Pension Plan investments, other than mutual funds in equity securities, were as follows at September 30, 2016:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Fair Value				
PIMCO High Yield Fund	Fixed Income	Not Rated	5.14	\$	33,326			
Core Bond Index Fund	Fixed Income	AA	7.35		3,353,103			
Low Duration Bond Fund	Fixed Income	A	2.16		1,217,550			
Total Fixed				\$	4,603,979			
Plus Fund	Stable Value	Aa2	4.31	\$	1,956,928			
Cash Management Fund	Money Market	AAA	46 days	\$	40,046			

## Note 2 – Deposits and investments (continued)

#### Money Purchase Pension Plan Investments

Participants in this Plan self-direct investments from a variety of mutual funds offered through the ICMA Retirement Corporation. Accordingly, the District has not adopted an investment policy for this Plan. Money Purchase Pension Plan investments, other than mutual funds in equity securities, were as follows at September 30, 2016:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Fair Value			
PIMCO High Yield Fund	Fixed Income	Not Rated	5.14	\$	10,706		
Core Bond Index Fund	Fixed Income	AA	7.35		327,314		
Low Duration Bond Fund	Fixed Income	A	2.16	_	28,529		
Total Fixed				\$	366,549		
PlusFund	Stable Value	Aa2	4.31	\$	165,108		
Cash Management Fund	Money Market	AAA	46 Days	\$	25,657		

#### Defined Benefit Pension Plan Investments

Investments in the Plan are managed in accordance with an Investment Policy Statement (Statement). This Statement sets the following guidelines: 40% for domestic equity securities, 25% for foreign equity securities and 35% for fixed income and cash securities. The Statement authorizes investments in domestic equities, mutual funds, stable value accounts, money market funds, corporate bonds, real estate investment trusts, exchange traded funds, commingled funds, and cash equivalent accounts.

The Statement states that the average credit quality of the fixed income portfolio shall be AA- or higher and the average rating of the mortgage portion of the portfolio must hold a credit rating of at least AA. As a means of limiting its exposure to interest rate risk, the Statement states that the average duration of the fixed income portfolio shall be less than 150% of the duration of the Barclays Capital aggregate Bond Index. Defined Benefit Pension Plan deposits and investments, other than mutual funds in equity securities, were as follows at September 30, 2016:

Fund/Investment	Туре	Average Credit Quality	Weighted Average Maturity (years)	Fair Value			
Fidelity Institutional Domestic	Money Market	AAAm	29 days	\$	168,366		
Reams Individual Securities	Corporate Bonds	A3	0.48	\$	7,465,328		
Reams Individual Securities	Government Bonds	Aaa	1.29	\$	8,552,909		
Reams Individual Securities	Asset Backed Securities	Aaa	1.70	\$	959,089		

## Notes to Financial Statements Year Ended September 30, 2016

#### Note 2 – Deposits and investments (continued)

#### OPEB Retirement Health Benefit Plan Investments

Investments in the Plan are managed in accordance with an Investment Policy Statement ("Statement"). The Statement sets the following guidelines: 70% for domestic and foreign equity securities and 30% for fixed income and cash securities. The Statement authorizes investments in domestic and foreign equities, mutual funds, stable value accounts, corporate bonds, real estate investments trusts, exchange traded funds, comingled funds, and cash equivalents. The Plan is completely funded by the District. The OPEB Retirement Health Benefit Plan investments, other than mutual funds in equity securities, were as follows at September 30, 2016:

Fund/Investment	Туре	Credit Quality	Weighted Average Maturity (years)	Fair Value		
Low Duration Bond Fund	Fixed Income	Α	2.16	\$ 2,762,234		

Due to the nature of the District's investments, there is no exposure to custodial credit risk, concentration of credit risk or foreign currency risk.

Note 3 - Capital assets

Capital asset activity for the year ended September 30, 2016, was as follows:

	Balances October 1, 2015		Prior Year Restatement		Restated Balance October 1, 2015		Increases		Decreases		s	Balances ept. 30, 2016

Restatement: Per Note 1, the District began capitalizing and depreciating Library books and audiovisual materials effective October 1, 2015. Accordingly, both capital assets and accumulated depreciation are restated for books and materials purchased in prior years.

## Note 4 - Long-term liability

Long-term liability consists of the following at September 30, 2016:

Accrued compensated absences- due within one year	\$	973,235
Accrued compensated absences- due beyond one year	_	588,609
Total long-term liability	\$	1,561,844

A summary of changes in long-term liability, other than changes related to the net pension obligation discussed in Note 6, is as follows:

	Balance October 1, 2015	A	dditions	Deletions	Balance otember 30, 2016	Due Within One Year
Accrued compensated absences	\$ 1,621,482	\$	1,188,857	\$ 1,248,495	\$ 1,561,844	\$ 973,235

The General Fund liquidates accrued compensated absences.

#### Note 5 - Commitments

#### Leasing arrangements

The District leases various facilities for branch libraries which are accounted for as operating leases and expire over the next ten years. These leases include various renewal options. The District also contracts annually to lease books and other materials.

The following is a schedule by year of minimum future rentals on noncancellable operating lease agreements as of September 30, 2016:

Total minimum future rentals	\$	3,223,342
2022	-	19,392
2021		134,093
2020		266,199
2019		696,618
2018		1,012,537
2017	\$	1,094,503

Total lease expenditures for the year ended September 30, 2016 were \$1,642,402, of which \$1,079,308 was for facilities and \$563,094 was for books and other materials leased.

#### Note 6 - Pension plans

#### Defined Benefit Pension Plan

<u>Plan description</u> - The District administers a single employer, defined benefit pension plan (Defined Benefit Pension Plan for Employees of the Orange County Library District) (the Plan) covering full-time employees hired on or prior to December 31, 2006. Eligibility for vesting begins on date of hire, whereas benefit accrual begins after one year of service. Plan provisions and contribution requirements are established and outlined in the Plan document, which may be amended by the District's Board of Trustees. The Board of Trustees appoints three employees to administer the Plan in accordance with the Plan document. Separate, stand-alone financial statements for the Plan are not prepared.

At January 1, 2016, the date of the latest actuarial valuation, Plan participation consisted of:

Retirees and beneficiaries receiving benefits	122
Terminated employees entitled to benefits but not yet receiving them	64
Active employees	108_
Total Plan Participants	294

Benefits - The Plan provides retirement benefits calculated as 2% of the member's final 5 year average salary out of the last ten years of employment times the member's years of service. Members with 10 years of service are eligible to retire at age 55 with a reduced benefit (5% reduction for each year earlier than age 65). Benefit terms provide for a 2% annual cost of living adjustment subsequent to the member's retirement date.

<u>Contributions</u> - The District is obligated by the Plan document to make periodic contributions, which are recognized in the period that they are due and the employer has made a final commitment to provide the contributions. The required contributions are actuarially determined and include normal costs. Employer contribution rates are determined using the entry age normal actuarial funding method.

The actuarial determined contribution under the entry age normal method is calculated as the normal cost, amounting to \$806,723, which was the amount contributed by the District for the year ended September 30, 2016. Employees do not make contributions to the plan. The Schedule of Employer Contributions, presented as required supplementary information following the notes to the financial statements, presents multi-year information about the contributions made by the District for the last ten years.

## Notes to Financial Statements Year Ended September 30, 2016

#### Note 6 - Pension plans (continued)

Actuarial assumptions — The total pension liability was determined using the following actuarial assumptions which were also used in the most recent actuarial report prepared as of January 1, 2016:

Investment rate of return	6.75%
Projected salary increases	4.5%
Inflation rate	0.0%
Cost of living adjustments	2.0% per annum
Mortality table	RP-2000 Combined Healthy Generational
	table

<u>Investments</u> - Plan investments are managed in accordance with an Investment Policy Statement ("Statement"), which was approved and can be amended by the District's Board of Trustees. The Statement, which authorizes investments in domestic and international equities, fixed income securities, and real estate investment trusts, provides the following allocation guidelines. The long term expected real rate of return, provided on an arithmetic basis, is also indicated for each investment allocation outlined in the Statement as follows:

	Allocation Guideline	Long Term Expected Rate of Return
Domestic equities	40%	10%
International equities	25%	6%
Fixed income	35%	6%
Real estate investments trusts	N/A	13%

Specific investments exceeding 5% of the Plan's net position consisted of the following; Vanguard REIT Index Mutual Fund, Vanguard Russell 3000 Index Mutual Fund, and Vanguard Total International Stock Index Mutual Fund.

For the fiscal year ended September 30, 2016, the annual money-weighted rate of return on Plan investments, was 9.5%. The money-weighted rate of return expresses investment performance, net of investment expenses, adjusted for the changing amounts actually invested.

<u>Discount rate</u> - The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine this discount rate assumed that the District would continue to fund the actuarially determined contribution. Based on this assumption and the investment long term expected rate of return for each asset class, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments. Therefore, the long term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine total pension liability.

## Note 6 - Pension plans (continued)

<u>Changes in net pension liability</u> - The net pension liability at September 30, 2016 is based on a January 1, 2016 actuarial valuation rolled forward using actuarial methods to the September 30, 2016 measurement date. The components of changes during fiscal 2016 are as follows:

#### Changes in Net Pension Liability

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset) (a) - (b)
Balances at 10/1/2015	\$40,969,803	\$40,422,849	\$546,954
Changes for the year:			
Service Cost	584,935		584,935
Interest	2,848,788	Ų.	2,848,788
Differences between expected and actual experience	(481,840)		(481,840)
Changes in assumptions	2,648,331	1	2,648,331
Contributions - employer		806,723	(806,723)
Net investment income	4	3,772,044	(3,772,044)
Benefits payments, including refunds of employee contributions	(1,745,038)	(1,745,038)	
Administrative expense		(16,045)	16,045
Net changes	3,855,176	2,817,684	1,037,492
Balances at 9/30/2016	\$44,824,979	\$43,240,533	\$1,584,446

The following presents the net pension liability (asset), using the discount rate of 6.75%, as well as what it would be if it were calculated using a discount rate that is 1% lower (5.75%) and 1% higher (7.75%) than the current rate:

	1% Decrease -	Current Rate-	1% Increase-
	5.75%	6.75%	7.75%
Net pension liability (asset)	\$7,765,230	\$1,584,446	(\$3,544,269)

#### Note 6 - Pension plans (continued)

Pension expense and deferred outflows and deferred inflows of resources related pensions - For the year ended September 30, 2016, the District recognized pension expense of \$1,699,162. At September 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between expected and actual experience	\$	7.14	\$	465,233
Changes in assumptions	1,9	942,109		-
Net difference between projected & actual earnings on pension plan investments		182,243 124,352	\$	780,226 1,245,459

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### Year ended September 30:

2017	\$ 1,046,156
2018	1,062,140
2019	965,655
2020	(195,058)

#### Defined Contribution Pension Plan

<u>Plan description</u> - The District administers a single employer, defined contribution pension plan ((Defined Contribution Plan and Trust for Employees of Orange County Library District (as amended and restated effective January 1, 2002 with subsequent amendments thereto)) (the Defined Contribution Plan) in lieu of participation in Social Security. Plan provisions and contribution requirements are established and outlined in the Defined Contribution Plan document, which may be amended by the District's Board of Trustees. Separate, stand-alone financial statements for the Defined Contribution Plan are not prepared.

All employees are eligible to participate in the Defined Contribution Plan from date of hire. At September 30, 2016, there were 410 participants and the fair value of the Defined Contribution Plan investments was \$20,699,555.

## Note 6 - Pension plans (continued)

<u>Contributions</u> - The District is obligated by the Defined Contribution Plan document to make contributions equal to seven and one-half percent (7.5%) of the Annual Compensation of each member. For the year ended September 30, 2016, the District contributed \$1,124,969 to the Defined Contribution Plan. Such contributions from the District are recognized as revenue by the Defined Contribution Plan when due and the employer has made a final commitment to provide the contributions. The amounts credited to the accounts of employees shall be 100% vested at all times.

<u>Payment of benefits</u> – Benefits paid to participants are recorded when due and payable in accordance with the terms of the Defined Contribution Plan document.

Administrative costs – Administrative costs are financed through investment earnings.

#### Money Purchase Pension Plan

<u>Plan description</u> – The District administers a single employer defined contribution plan (Money Purchase Plan and Trust for Employees of the Orange County Library District) (the Money Purchase Plan) for full time employees hired on or after January 1, 2007. In addition to new hires, existing participants in the District's Defined Benefit Pension Plan were given a one time opportunity to freeze their benefits in that plan and begin participating in the Money Purchase Plan. Sixty-six participants in the Defined Benefit Pension Plan made this election in May 2007.

Plan provisions and contribution requirements are established and outlined in the Money Purchase Plan document, which may be amended by the District's Board of Trustees. Separate, stand-alone financial statements for the Money Purchase Plan are not prepared.

Employees are eligible to participate in the Money Purchase Plan from date of hire. At September 30, 2016, there were 161 participants and the fair value of the Money Purchase Plan investments was \$4,321,981.

<u>Contributions</u> – The District is obligated by the Money Purchase Plan document to make contributions equal to nine percent (9%) of Annual Compensation of each member. For the year ended September 30, 2016, the District contributed \$614,881 to the Money Purchase Plan. Such contributions from the District are recognized as revenue by the Money Purchase Plan when due and when the employer has made a final commitment to provide contributions. Participants become fully vested in the District's contributions after one year from date of hire.

<u>Payment of benefits</u>- Benefits paid to participants are recorded when due and payable in accordance with the terms of the Money Purchase Plan document.

Administrative costs - Administrative costs are financed through investment earnings.

## Note 7- Other Postemployment Benefit Plan

<u>Plan Description</u> – The District administers a single-employer defined benefit other postemployment benefit plan (OPEB Plan) and can amend the benefit provisions. In accordance with its Employee Handbook and Collective Bargaining Agreements (CBA) previously in effect, the District provides health care insurance coverage and a limited life insurance benefit to those employees who retire under the terms of the District's Defined Benefit Pension Plan on or after attaining age 55 with at least 10 years of service.

In accordance with State Law, all retiring employees must be provided access to the District's group health insurance coverage. For non CBA retirees hired prior to January 1, 2007, the District pays the entire cost of this coverage. Non CBA retirees hired after this date pay the full cost of the coverage should they elect this benefit. For CBA retirees hired prior to December 10, 2004, the District pays a fixed reimbursement with the balance of the cost of the District's group coverage being paid by the retiree. CBA retirees who retired before October 10, 2008 also have the option of obtaining independent health coverage and receiving the fixed reimbursement. Dependents of retirees may be covered at the retirees' option the same as dependents of active employees (retirees pay the full cost). The Collective Bargaining Unit was decertified in 2015, but retiree benefits are dictated by the CBA in effect when the CBA retiree retired.

Retirees are eligible to participate in the District's dental plan just like current employees.

\$1,000 of life insurance is provided to all retirees.

As of the January 1, 2016 Actuarial Report, which is the most recent actuarial valuation, 234 employees were participants in the OPEB Plan and 106 retirees were receiving benefits.

In March 2007, the District established a qualifying trust and began funding its OPEB Plan obligation. Separate stand-alone financial statements for the trust are not prepared.

<u>Funding Policy</u> - The District has the authority to establish and amend the funding policy for its OPEB Plan. For the year ended September 30, 2016, the District contributed \$564,010, which was the annual required contribution per the January 1, 2015 Actuarial Report for the OPEB. It is the District's intent to base future contributions on the ARC in subsequent annual actuarial reports.

<u>Contributions</u> - OPEB Plan member contributions are recognized in the period that they are due. Employer contributions to the OPEB Plan are recognized as revenue when due and the employer has made a final commitment to provide the contributions. The Schedule of Employer Contributions, presented as required supplementary information following the notes to the financial statements, presents multi-year information about the contributions made by the District for the last three years.

If CBA retirees elect to participate in the District's group health insurance coverage, they are responsible for paying the difference between the cost of this coverage (\$750 per month) and the fixed reimbursement, which varies depending on the retirement date. All retirees are responsible for contributing the entire cost of any dependent coverage.

## Note 7 - Other Postemployment Benefit Plan (continued)

Annual OPEB Plan Cost and Net OPEB Asset - The cost of the District's OPEB Plan is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of Governmental Accounting Standards Board Statement Number 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liability over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB Plan cost for the year, the amount actually contributed, and the changes in the District's net OPEB Plan position as of September 30, 2016.

Annual required contribution	\$ 564,010
Interest on net OPEB asset	(17,513)
Adjustment to annual required contribution	38,862
Annual OPEB Cost (expense)	585,359
Contributions Made	564,010
Decrease in net OPEB asset	(21,349)
Net OPEB asset - Beginning of year	250,190
Net OPEB asset - End of year	\$ 228,841

The General Fund liquidates any Net OPEB Obligation.

The Net OPEB Asset of \$228,841 is presented as an asset on the District's entity wide financial statement.

		Percentage of	
OPEB Cost	Amount Contributed	OPEB Cost Contributed	Net OPEB Asset
مانات بالمانات	1001.002	7505	V250 210
			\$268,383
			\$250,190
\$585,359	\$564,010	96%	\$228,841
	\$873,753 \$650,629 \$585,359	OPEB Cost         Contributed           \$873,753         \$858,385           \$650,629         \$632,436	OPEB Cost         Amount Contributed         OPEB Cost Contributed           \$873,753         \$858,385         98%           \$650,629         \$632,436         97%

<u>Payment of Benefits and Refunds</u> - Benefits and refunds paid to participants are recorded when due and payable in accordance with terms of the OPEB Plan.

<u>Funded status and funding progress</u> - The most recent actuarial report for the District's OPEB Plan was prepared as of January 1, 2016. As of this point in time, the actuarial accrued liability for benefits was \$13,280,002 and the actuarial value of investments was \$11,929,430, resulting in an unfunded actuarial accrued liability of \$1,350,572 and a funded ratio of 90%. The annual covered payroll was \$10,952,082 and the ratio of the unfunded actuarial accrued liability to covered payroll was 12%.

## Note 7 - Other Postemployment Benefit Plan (continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

<u>Actuarial methods and assumptions</u> - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Thereafter	5.18% - 4.35%	5.18% - 4.35%

## Note 8 - Risk Management

The District became self-insured for employee health insurance, effective January 1, 2007. As permitted by GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, the District accounts for its self-insured assets, liabilities, net position and activities in an internal service fund.

The District's health internal service fund covered claims up to \$175,000 per individual. The District purchased excess stop loss coverage on an individual basis where individual claims exceeded the \$175,000 limit.

The claims liability of \$177,260 reported in the Internal Service Fund is the actuarially determined undiscounted amount. The estimated liability is based upon actual claims that have been submitted as well as actuarially determined claims incurred but not reported. Changes to the claims liability since the year ended September 30, 2014 are as follows:

Fiscal Year Ended	 Balance ctober 1 Additions Claim		im Payments	1000	Balance otember 30		
9/30/2015	\$ 127,521	\$	1,743,266	\$	(1,750,474)	\$	120,313
9/30/2016	\$ 120,313	\$	2,453,080	\$	(2,396,133)	\$	177,260

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. In fiscal year 2016, the District contracted with various companies for insurance coverage. The companies provided coverage for workers compensation, property, liability, flood, public officials, fiduciary (pension), and employment practices. Settlements have not exceeded insurance coverage for each of the past three years.

#### Note 9 - Property Taxes

Under Florida law, the assessment of all properties and the collections of all property taxes are provided by Orange County's Property Appraiser and Tax Collector, who are elected officials. Ad valorem property taxes levied in September 2016 are for the purpose of financing the budget of the 2017 fiscal year. Property tax revenues recognized for the 2016 fiscal year were levied in September 2015.

The State legislative act, which established the District, permits the District to levy taxes up to 1 mill of assessed valuation for operating. The District's Governing Board establishes the tax levy for the District, which included a Millage rate levied of .3748 mills for operating for the fiscal year ended September 30, 2016.

Key dates in the property tax cycle for revenues recognized in fiscal year 2016 include the following:

Lien date	January 1, 2015
Property taxes levied	September 22, 2015
Beginning of fiscal year for which taxes have been levied	October 1, 2015
Tax bills rendered	November 1, 2015
Property taxes payable:	
Maximum discount (latest date)	November 30, 2015
Delinguent	April 1, 2016
Tax certificates sold on unpaid taxes	May 31, 2016

## STATISTICAL SECTION

The Statistical Section of the Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and the required supplementary information says about the District's overall financial health.

Contents	Pages
Financial Trends	59 -62
These schedules contain trend information to help the reader understand how the District's financial performance and position have changed over time.	
Revenue Capacity	63 - 66
These schedules contain information to help the reader assess the factors affecting the District's ability to generate property taxes.	
Debt Capacity	67 - 71
These schedules present information to help the reader assess the affordability of the District's current levels of debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	72 - 73
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	74 - 76
These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

## Report of Independent Auditor on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Members of the Orange County Library Board of Trustees Orange County Library District Orlando, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Orange County Library District (the "District"), a component unit of Orange County, Florida, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise District's basic financial statements, and have issued our report thereon dated January 5, 2017. We also have audited the financial statements of the internal service fund, presented in the District's basic financial statements, and each of the fiduciary funds of the District, presented as supplementary information in the accompanying combining financial statements, as of and for the year ended September 30, 2016.

## Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

Chang Bahaat us

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Orlando, Florida January 5, 2017

## Report of Independent Auditor on Compliance For Each Major State Financial Assistance Project and on Internal Control Over Compliance

To the Members of the Orange County Library Board of Trustees Orange County Library District Orlando, Florida

## Report on Compliance for the Major State Financial Assistance Project

We have audited the compliance of the Orange County Library District (the "District") with the types of compliance requirements described in the State of Florida Department of Financial Services' State Projects Compliance Supplement that could have a direct and material effect on the District's major state financial assistance project for the year ended September 30, 2016. The District's major state financial assistance project is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its major state financial assistance project.

## Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the major state financial assistance project based on our audit of the compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General. Those standards and Chapter 10.550, Rules of the Auditor General, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state financial assistance project occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major state financial assistance project. However, our audit does not provide a legal determination on the District's compliance with those requirements.

## Opinion on Each Major State Financial Assistance Project

In our opinion, the District complied, in all material respects, with the requirements referred to above that could have a direct and material effect on its major state financial assistance project for the year ended September 30, 2016.

## Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major state financial assistance project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major state financial assistance project and to test and report on internal control over compliance in accordance with Chapter 10.550, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state financial assistance project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state financial assistance project will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state financial assistance project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Chapter 10.550, Rules of the Auditor General. Accordingly, this report is not suitable for any other purpose.

## Independent Auditor's Management Letter

To the Members of the Orange County Board of Trustees Orange County Library District Orlando Florida

## Report of the Financial Statements

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Orange County Library District (the "District), a component unit of Orange County, Florida as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 5, 2017. We also have audited the financial statements of the internal service fund, presented in the District's basic financial statements, and each of the fiduciary funds of the District, presented as supplementary information in the accompanying combining financial statements, as of and for the year ended September 30, 2016.

## Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

### Other Reports and Schedule

We have issued our Report of Independent Auditor on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards, Report of Independent Auditor on Compliance For Each Major State Financial Assistance Project and on Internal Control over Compliance; Schedule of Findings and Questioned Costs and Report of Independent Accountant on Compliance with Local Government Investment Policies. Disclosures in those reports and schedule, which are dated January 5, 2017, should be considered in conjunction with this management letter.

## **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address significant findings and recommendations made in the preceding annual financial audit report. No findings or recommendations were made in the preceding annual financial audit report.

## Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in the management letter, unless disclosed in the notes to the financial statements. The District was established by special state legislative act, Chapter 80-555, Laws of Florida, approved by referendum on September 9, 1980, as an independent special district. The original act, as amended, was recodified into Chapter 99-486, Laws of Florida. There are no component units of the District.

## **Financial Condition**

Sections 10.554(1)(i)5.a and 10.556(7)., Rules of the Auditor General, requires a statement be included as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific conditions met. In connection with our audit of the financial statements of the District, the results of our tests did not indicate the District met any of the specified conditions of a financial emergency contained in Section 215.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

## **Annual Financial Report**

Sections 10.554(1)(i)5.b.and 10.556(7), Rules of the Auditor General, requires that we determine whether or not the annual financial report for the District for the fiscal year ended September 30, 2016, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2016. Our comparison of these two reports resulted in no material differences.

## Other Matters

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

## Purpose of this Letter

Kany Behoat up

The purpose of this management letter is to communicate certain matters prescribed by Chapter 10.550, Rules of the Auditor General. Accordingly, this management letter is not suitable for any other purpose.

Orlando, Florida January 5, 2017

## Report of Independent Accountant on Compliance with Local Government Investment Policies

To the Members of the Orange County Library Board of Trustees Orange County Library District Orlando, Florida

## Report on Compliance

We have examined the Orange County Library District's (the "District's") compliance with the local government investment policy requirements of Section 218.415, Florida Statutes, during the year ended September 30, 2016. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

## Scope

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

## Opinion

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2016.
